

Shaping a new tomorrow, today.

RESIDENTIAL ADDITIONS, ALTERATIONS or ACCESSORY BUILDINGS

Required With Construction Permit Application

ALL PLANS SHALL BE COMPLETE AND FULLY ASSEMBLED

In order to provide excellent service to the Town of Gilbert’s customers, each submittal must meet the minimum requirements as listed on this form, or your submittal will not be accepted by the Development Services Staff.

Applicant	Staff
<input type="checkbox"/> Construction plans.	<input type="checkbox"/>

Plan set shall include (but not be limited to), site plan or typical plot plan, floor plan, elevations, electrical plan, gas piping diagram, braced or shear wall plan, foundation plan, framing plan, plumbing fixture schedule, sections and details.

Site plans are not required for interior remodels

Plan must clearly show how braced walls meet code requirements (unless lateral analysis is provided)

Structural calculations and cut-sheets

Soil report (if not already on file with Town of Gilbert) or Engineer analysis/acceptance
(See “Soil Investigation & Reports” flier for more information)

If soil report is used plan must note provider and report number

Site grading and drainage plan for lots requiring on lot retention

Check subdivision list or with Gilbert Engineering Division to confirm requirement of G&D plan

If property is located in flood plain the site or grading and drainage plan must be sealed by a registrant

Note: The following subdivisions require fire sprinklers:

- Agridopia
- Cascade

The Town of Gilbert is currently enforcing the 2018 IRC with Town Amendments.

Wind Design 90 mph – Exposure B, Seismic Design Category B
