

# Tankersley Area V Waterline Replacement

Project No. WA1320

## Overview:

The water system in this area was originally built and maintained by the Tankersley Water Company prior to the Town of Gilbert acquiring it in 1996. This project includes replacing and upgrading the water mains in the area generally located between Queen Creek and Ocotillo Roads and between Greenfield Road and Val Vista Drive.

## Project Objectives:

- Upgrade waterline size to the Town of Gilbert standard of 8-inch to improve water flow in the area.
- Provide looped waterline connections to improve water quality in the area.
- Install fire hydrants per the Town of Gilbert standard spacing to increase fire protection in the area.
- Install additional water valves for improved operational flexibility.

## Schedule:
